Brief Description

What topics are affecting the specialised trade? What challenges is the industry facing and how can these be overcome? At which national and international trade fairs are new trends to be discovered? The trade magazine 'das spielzeug' has been addressing all this and much more in each of its nine issues since 1909. In addition to changing focus topics such as wooden toys, licences or sustainability, there are numerous established and popular sections - including, for example, our specialist shop reports, company portraits and interviews.

With our high-circulation, bilingual 'Toy Fair Special by das spielzeug', we prepare our readers in good time for the upcoming Spielwarenmesse in Nuremberg.

During the first three days of the world's leading trade fair, we will also be publishing our bilingual 'Toy Fair News' in a practical iPad format. It contains the latest news and trends from Toy City. The issues are distributed directly at the fair, are available in Nuremberg hotels and are handed out to visitors at our press stand in the foyer of Hall 12.0.

Our website www.dasspielzeug.de supplements the print editions with daily news and reports from the industry as well as product information and competitions. Our online portfolio also includes the weekly das spielzeug newsletter and social media presences on Facebook, Instagram and LinkedIn.
